

Lifting stati. Aqualift F XL 300l Duo, SPF 1400-S3, Cast-iron gate valve

Article information

Item no.: 11016 GTIN: 4026092056837 Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit).

Type of wastewater: Installation situation: wastewater with sewage free-standing set-up

Version:

Type of system: Shut-off valve: Twin pump station Shut-off valve made of cast iron

General characteristics:

Colour: Standard: black EN 12050-1

Tank:

Tank volume:

300 l

Pressure pipe connection:

vertical

Pumping device:

Pump: Number of pumps: Operating mode: Impeller type: Length of mains cable for pump: SPF 1400 2 S3 - 50 % Multi-vane impeller 5 m

Control:

Control unit: Operating voltage: Mains frequency: Type of level measurement: Level measurement instrument: Comfort 230 V 50 Hz pneumatic Immersion pipe
