Advantages

- High-tech Ecoguss composite material
- Ecoguss, highest fire protection standards
- Scientifically confirmed sound protection effect

Description

The Ecoguss project drain is used for point drainage and is equipped with a glued flange as well as a removable odour trap, a lip seal and a temporary protective cover.

The recyclable composite material Ecoguss meets the highest noise protection requirements, is temperature-resistant, resistant to aggressive media, and has a permanently corrosion-free surface. It is also briefly flammable from 100 to 400 degrees Celsius.

The loose flange is used for clamping polymer and elastomer sealing sheets as well as for cold bitumen seals. The outlet socket is suitable for connection to SML cast iron pipes. Separate equipotential bonding is not necessary.
