

Staufix FKA automatic backwater valve DN 150, exposed

Article information

Item no.: 84150

GTIN: 4026092046357

Price group: 30

Advantages

- Safe, motor-driven closure system with optical probe
- Fast, simple and toolless maintenance
- Available as a complete set or module set

Description

The Premium automatic backwater valve for faecal and faecal-free wastewater is equipped with a motor-driven closure system which is closed automatically in the event of backwater. A second closure system serves as an emergency closure to be closed by hand.

The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface.

Thanks to the modular KESSEL system, existing systems can easily be converted to a Pumpfix F backwater pumping station.

Type of wastewater: wastewater with sewage Installation situation: exposed drainage pipe

Version:

Emergency closure: yes

Delivery state: installation-ready

Backwater protection: Type 3
Number of mechanical backwater flaps: 1
Number of motor-driven backwater flaps: 1

General characteristics:

Nominal size (DN): 150
Outer diameter (OD): 160
Colour: black
Standard: EN 13564

Dimensions:

Length:656 mmWidth:350 mmHeight:422 mm

Drain body:

Socket version: including spigot and socket

Coverage features:

Type of cover: Protective cover

Cover material:
