

Upper section vertically adjustable, Class D

Article information

Item no.: 850121
GTIN: 4026092003077
Price group: 60

Advantages

- Multiple combinations with suitable drain bodies

Description

The polymer upper section is suitable for LW 400 chamber systems and is equipped with a clamping ring and a hanger for sludge buckets. Continuously height-adjustable by 440 mm.

If installed in roads, parking areas and comparable hard-surfaced traffic areas for trucks (Class D), the upper section must be underlaid on site with an approx. 15 cm thick reinforced supporting slab with at least 0.80 x 0.80 m made of B35 concrete. The exact design of the concrete slab must be calculated structurally according to the circumstances on site. A standard formwork and reinforcement drawing can be provided.

Dimensions:

Length:	450 mm
Width:	450 mm
Height:	450 mm

Vertical adjustment:	vertically adjustable upper section
----------------------	-------------------------------------

Coverage features:

Colour of cover:	black
Load class:	D 400 (EN 124)
Surface:	EDM

Grating:

Rim length:	450 mm
Rim width:	450 mm

Upper section material:	Polymer
