

Chamber module LW 1000 ground Access LW 600, 3880-4129 mm, Class D

Article information

Item no.: 8740085 GTIN: 4026092066003

Price group: 60

Advantages

- For modular assembly with simple connection segments and intermediate sections 250 and 500 mm high
- Innovative honeycomb structure
- Installation in groundwater up to 3000 mm
- Vertically adjustable upper section available in LW 600 and LW 800 from class K 3 to class D
- ideal for scoring up to DN 150
- lift-protected

Description

The chamber module for wet or dry installation is equipped with fitted access steps in accordance with DIN EN 13101 and BGR 177, all the necessary seals and connecting wedges as well as a taper with vertically adjustable upper section. The intermediate sections made of permanently resistant polymer (PE) have universal connection possibilities.

Thanks to the modular KESSEL system, the design can be flexibly combined with intermediate sections, taper, upper section and cover.

Installation situation: underground installation

V	ΗI	ˈSi	U	Ш	

Note on installation depth: note maximum installation depth 5000 mm in

combination with technical module

Delivery state: Partly for on-site assembly (access steps have been

pre-mounted in the factory)

General characteristics:

Colour: black

Standard: EN 13598-2

Approval: Z-42.1-527

Dimensions:

Length: 1,200 mm Width: 1,200 mm

Tank:

Inlet max. scoring (DN): 150 mm

Installation depth: 3,880 - 4,129 mm

Groundwater resistant from lower edge of base

section:

Clear width of tank (LW): 1,000 mm Clear width of entry (LW): 600 mm

Vertical adjustment: vertically adjustable upper section

3,000 mm

Coverage features:

Type of cover: Round cover plate

Cover material: Grey iron Colour of cover: black

 Load class:
 D 400 (EN 124)

 Length:
 659 mm

 Width:
 659 mm

 Height:
 122 mm

Tightness: surface water resistant

Surface: Grey iron Locking: locked
