

Grease separat. EasyClean ground NS 1, Auto Mix & Pump, 800-1200 mm, A/B

Article information

Item no.: 93001/120B-K-P1

GTIN:

Price group: 60

Advantages

- Fully automated disposal and rinsing device
- Customisation possible through control unit
- Clean and odour-free disposal and cleaning

Description

The separator for greasy wastewater is suitable for installation in the ground and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a rounded base for fast and clean disposal. Access for cleaning and maintenance work is possible via one or several service access covers.

The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning and odourneutral disposal takes place via an exterior pump which is installed in a separate engineering chamber and can be disconnected from the tank by a shut-off valve.

The fully automatic program run is controlled by a user-friendly control unit with multi-line display that can be integrated into the building management system through a potential-free contact. Cleaning and disposal can be started remotely using the remote control.

Thanks to the customisable cleaning program with fast-selection function, cleaning can be adapted to the local circumstances as required. Observance of the Drinking Water Hygiene Directive can be guaranteed through the fully automatic rinsing of the drinking water pipes.

20 year po	lyethyl	lene wa	arranty.

Installation situation: underground installation

Version:

Shut-off valve: yes

Type of disposal: automatic disposal and cleaning system

Disposal system: Disposal pump

Disposal variant: Auto Mix & Pump

Refill inlet in accordance with DIN 1988: yes Nominal size (NS):

Sampling device: Type NBG

Inspection window: no Shredder-Mix-System: yes SonicControl: no

Water supply: 2 solenoid valves 1"

Load-bearing capacity (DIN 19901): E2

Note on installation depth: Installation in the ground, frost-free depth 1200 mm

Delivery state: Installation-ready (electrical components,

connection parts must be connected on site)

Scope of delivery: Storz-B coupling R 2 1/2" for disposal vehicle

connection
